

VersaBoard™

**VersaBoard
RT-7040**

The VersaBoard was designed specifically to better stabilize head, neck and brain patients during IMRT treatments. Made out of carbon fiber, the VersaBoard offers a variety of thermoplastic and accessory options.

The VersaBoard also provides the option to cantilever off the end of the couch to allow for a 360° treatment angle.

The VersaBoard features the following benefits:

- A maximum width of 61.0cm
- Ruled Edges for alignment.
- Rubber transition pad increasing patient comfort.
- Easily accommodates Head Only and Head & Shoulder thermoplastic masks.
- Allows for 360° of treatment angles.
- Accommodates Silverman head rests, MoldCare pillows and the SecureVac VersaCushion.
