

# Wedges

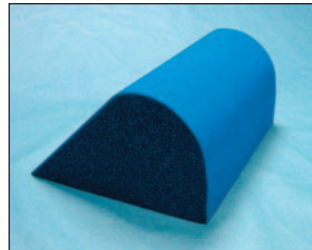

Bionix offers a variety of standard patient positioning wedges, bolsters and pads to aide in patient comfort. Bionix wedges and bolsters have a sprayed-vinyl coating creating a non-porous surface that is free from seams. This creates a product that is very easy to clean in-between patient uses.

**COMING SOON, exclusively from Bionix, all wedges and bolsters will include an anti-microbial feature that helps to ensure sanitary use from patient to patient.** Call today to find out more about this new feature.

Bionix also offers custom size wedges and bolsters upon request. Extended lead times may apply for customer orders.
